Sapling Global Academy offers expert training designed for all knowledge levels. Whether you need a deeper understanding of a standard to prepare for upcoming audits or aspire to become an auditor, we have the right training for you!

Our training programs cater to all experience levels, from quick one-hour webinars that introduce key management system standards to intensive five-day IRCA-registered lead auditor courses for those overseeing system implementation and audits. Led by experienced auditors and industry educators, our courses ensure you stay updated on the latest standards and best practices.

Our training equips aspiring Management training with the knowledge and skills needed to achieve lead auditor status. Industry experts provide guidance on assessing the design, implementation, and continuous improvement of an organization's management system in alignment with ISO standards.

Awareness, Internal Auditor, and Implementation Training

This program equips participants with a deep understanding of management system auditing, ISO standard requirements, and their practical application within an organization. Through engaging lectures, discussions, and hands-on workshops, attendees develop the skills necessary to perform thorough and effective audits.

Designed for experienced internal auditors, this course enhances auditing skills, offers best practice insights, and provides a deeper understanding of standard requirements. It is also ideal for those looking to refresh their knowledge or stay updated on changes between standard versions.

Overview Training

Understanding a standard and its requirements is the first step toward certification and building an effective management system.

Our overview training courses provide essential knowledge on standard implementation, key requirements, and industry best practices. These sessions equip you with the skills needed to establish a certified management system within your organization.

Webinars and E-Learning

Sapling Global Academy's e-learning and webinar courses provide the training you need without leaving your office. Our expert trainers deliver course material through an interactive online platform, ensuring an engaging learning experience.
